REMEMBER ... ALWAYS KEEP ROTO BRUSHES AWAY FROM TAILS!

S/S STAGGERED OR MINI STAGGERED BRISTLE THE DAILY SHOW BARN ROTO BRUSH!

The Staggered Bristle Roto Brush has rows with staggered lengths of bristles, one row being long, the next row being 1/4" shorter. The short cut rows allow the long bristles to work deeper into the hair. This invigorates gentle stimulation to the hair base for new hair growth and faster hair training. The mini (purple) is 32% shorter and 11% smaller diameter compared to the full sized roto brush. Excellent for use on smaller animals and easier to handle for a younger person.

What is ShowBloom Ultra?

ShowBloom Ultra is a highly concentrated, nutritional formula that uses brewer's yeast, minerals and all-natural ingredients to give your animals the nutrition they need and the performance you want.

Why is brewer's yeast an effective ingredient?

When added to an animals diet, brewer's yeast is proven to increase feed efficiency, improve weight gains and augment overall health. It aids in the natural fermentation in an animal's digestive tract by supplying nutrients to naturally occurring fermentative organisms.

ShowBloom Ultra aids in muscle development and firmness, helps to increase food intake and utilization, promotes healthy skin and hoof conditions, and creates that beautiful shiny and healthy coat you've always dreamed of! Feeds one animal for 175 days or more, for only 85¢ a day with results in as little as 30-45 days!

FREEZE BRANDS

These branding irons are ample in weight and have the temperature holding capacity to help you brand more livestock in less time and still aid you in producing a better brand. Freeze branding is a technique in which a super cold branding iron properly applied to the animal's hide kills the pigment producing cells. The result is white or colourless hair at the brand site. It is effective on both cattle and horses. The main advantage of freeze branding is that the brand is easily read at any time of the year and gives a permanent identification.
